

Adsil®

PRESERVE | PROLONG | PROTECT

Case Study: Barnhill's Buffet, Atlantic Beach, FL

Photo shows Adsil's MicroGuard®/MicroGrip™ Anti-Skid Floor System being applied.

Situation: Ceramic tile installed around buffet serving area was an ongoing slip hazard.

Solution: Install Adsil's patented, inorganic MicroGuard® AD703 Clear & MicroGrip™ Anti-Skid floor system.

Results: After 10 months of heavy daily use, the MicroGuard®/MicroGrip™ system has proven effective by eliminating slip & fall concerns and the need for installation of expensive floor mats. No staining of grout or tile has occurred from food spills; surface continues to show no signs of wear from daily foot traffic. Store personnel maintain floor using standard operating cleaning procedures.
