CASE STUDY: University of Mississippi, Oxford, MS (March 5, 2004)

Colored brick pavers before treatment

After treatment with MicroGuard[®] AD703

Situation: Terrazzo floor surfaces showed signs of wear, lost depth of luster and shine.

Solution: Install Adsil's patented, inorganic MicroGuard[®] AD703 Clear for Terrazzo.

Results: After initial application of MicroGuard[®] AD703, the floor surface shines brilliantly. The surface will clean easily with hot water and a mild cleaner. It will require no more waxing, stripping or buffing, thus, saving on labor and cleaning material costs.
