CASE STUDY: Flooring Case Study - College Campus

University of Florida — Receives the Prudential/Davis Maintenance Award

After treatment with MicroGuard®

After treatment with MicroGuard®

UF has used MicroGuard® clear floor treatments since 2001 on over 250,000 square feet of bathroom & commons area tile floors and over 60,000 square feet of concrete flooring in the student union area. They continue to extend this work as time and budget permits. According to Jim Crocker, Assistant Director of Housing, MicroGuard® treatments have provided the following benefits:

- 30% + reduction in cleaning cost; time, labor, & chemicals.
- Significant odor reduction in the bathrooms - with sealed grout.
- Marked improvement in the aesthetic surface appearance.
- Quicker cleaning turnover of rooms during semester change.
- Easier to remove chewing gum and stains from concrete.
- No mold growth on the exterior concrete; this is Florida!

Adsil receives glowing testimonial from Gator maintenance staff!
